

## INFORMATION REGARDING THE CHANGE TO THE CAMPING CLASSIFICATION SYSTEM

Dear customers,

Certain reforms to the French system of campsite classification will come into effect as of 24th July 2012.

As we go to print, the names of the CAMPEOLE campsites that have already received their new classification have had the letters "N.N." added to them. Those still awaiting reclassification have the letters "A.N." to indicate that this refers to the previous classification system dating back to 1993. Strictly speaking from a legal point of view, the campsites that do not have their new classification as of 24th July 2012 will no longer be considered classified in any particular category. The new classification can only be obtained once the campsite has been reopened to the public after its period of closure. Campéole will do its utmost to guarantee that the information concerning the new classification of all of its campsites is communicated as soon as it has been received. All updated information will be made available on our website. Alternatively, please feel free to contact our customer advisors at the central booking office or our campsite teams for details.

You can count on Campéole to reach for the stars whilst collecting even more for its campsites – when it comes to making our customers' holidays special, the sky's the limit!

We remain at your entire disposal if you should need any further information.
